

Dear Industry Leader,

The **European Society of Digital and Integrative Pathology (ESDIP)** was founded after the 13th European Congress on Digital Pathology, in Berlin, May 2016 and represented the expression of a group of experts that were organizing meetings dedicated to digital pathology since 1992. Since then, this group has expanded and is now evolving into a Society open to medical, academia and industry participation.

Supporting the key role of the Pathologist through Integrative Digital Pathology initiatives is the main objective of the ESDIP. ESDIP's actions are essential for the comprehensive development of medical, scientific and industrial communities and, ultimately, for the improvement of the quality of care and life of the patients. The role of ESDIP is expressed in its largest magnitude in the annual European Congress on Digital Pathology (ECDP), an event that is growing and being established as the main event on digital pathology in Europe.

ESDIP is opening the possibility of collaboration with Industry Leaders. This will allow companies interested in digital and computational pathology to collaborate with the members of the society, participate in the main decisions of the board of advisors, have privileged access to the ECDP editions and other educational events, and use the ESDIP website as a way to advertise the collaboration with ESDIP. ESDIP aims to provide valuable resources to its members and your support is very important for this goal to be achieved.

We are confident that an open and profound collaboration between ESDIP and industry partners is a key to unlock the full potential of digital pathology solutions in the future. Such collaborations are essential to address, elaborate and solve scientific, regulatory, payor and standardization topics in a holistic way.

Please see further information on this matter in attachment.

We hope to establish a fruitful collaboration with the company you represent,

Sincerely,

Catarina Eloy

Norman Zerbe

David Ameisen

ESDIP President

ESDIP Vice President

ESDIP Industry Liaison

Dear Industry Leader,

Please find below the different modalities of collaboration with The **European Society of Digital and Integrative Pathology (ESDIP)**.

Level of collaboration	Benefits	Annual fee
